Akshat Saraswat

Tutor@ Studypool | Works with restaurants on different cloud kitchen platforms | Learner at various institutes | Robotics | Artificial Intelligence & Machine Learning at University School of Automation & Robotics'26.

New Delhi, Delhi, India

Summary

Hello! I'm Akshat Saraswat, a first-year engineering student pursuing my Bachelor's degree from University School of Automation and Robotics(USAR), Guru Gobind Singh Indraprastha University. In addition to my studies, I have taken up a project for helping restaurants increase their ratings on cloud kitchen platforms and for tutoring students in my spare time.

I have been working with restaurants to optimize their online presence and improve their ratings on platforms such as Swiggy, Zomato, and Uber Eats. By analyzing customer reviews and feedback, I provide actionable insights and suggestions for improving the quality of food, service, and overall customer experience.

In addition to my work with restaurants, I also tutor students on Studypool in subjects such as Math, Science, and English. I enjoy helping students achieve their academic goals and develop their problem-solving skills.

To enhance my skills and knowledge, I have completed several online courses from top universities such as Duke University, IIT Madras, IIT Kharagpur, and the University of Michigan. These courses have enabled me to develop my skills in Mathematics, Python programming, Robotics Technology, and IIoT (Industrial Internet of Things), among other things.

I also hold 6 certificates from Google, which validate my proficiency in various digital analytics tools. These certificates are valid until May 7, 2025, and I am committed to staying up-to-date on the latest technologies and trends in the industry.

When I'm not in charge you'll either find me watching a game of Cricket or playing it! :)

Experience

Studypool

Tutor

August 2022 - Present (1 year)

My first ever freelancing project and it feels amazing to interact with young fellows and it everyday motivates me to make academics easier for my young buddies.

TimesNext

Content Writer

August 2022 - September 2022 (2 months)

Had a great time and learnt a lot while working with India's No.1 platform dedicated to entrepreneurs, startups, bitcoin and technology.

CRY - Child Rights and You

Coordinator

May 2022 - August 2022 (4 months)

Got so much from the society and thought of giving it back to some extent. Really proud to have worked for such a beautiful organisation.

Google

Student

January 2022 - May 2022 (5 months)

It was an amazing experience learning from a tech giant - GOOGLE. Learnt some new skills and looking forward to implement them in various projects in the near future.

Robotics Club

Project Manager

April 2020 - September 2020 (6 months)
